DayshaDevOps

# Getting started with an A4

1. What is the problem you are solving?
2. What is the solution?
3. What are the complications?
4. How do we overcome the complications?

Kickbox Foundation

Home Kickbox Method Kickbox Foundation Get Material Events

https://www.kickbox.org/

## Welcome to Kickbox Foundation

Kickbox is a methodology in corporate innovation to activate employees and create valuable business cases for the company.

The methodology was invented by Adobe, further shaped by Swisscom, and adapted and implemented by thousands of companies.

The Kickbox Foundation provides a space to get Kickbox open-source material from Adobe and Swisscom and exchange thoughts with other Kickbox practitioners.
