

# CLOSING THE IT SKILLS GAP

## Levels Where Organizations Face the Most Acute Skills Shortage

Insufficient IT resource skills are a huge challenge across the globe. Forty percent (40%) of Upskilling IT 2022 survey respondents said that the resource and skill shortage is one of their top three challenges today. Additional research shows dramatic skill shortages within the technology and IT area globally. Addressing technical debt must be paired with addressing talent debt; humans make it all happen.
